

DEALERSHIP TEXTING PROGRAM

MARKETING PACKAGE

Your customers want to text you. Let them. Engage with your customers where they are — texting on their phone. Double your leads, generate online reviews, and capture payments — all via text.

- **TEXT FROM MOBILE OR DESKTOP**
Text from your existing dealership phone line instead of giving out your personal cell phone number.
- **DOUBLE WEBSITE LEADS**
Install the Kenect® 'Text Us' widget on your website and see your leads double in volume.
- **VIDEO CHAT WITH CUSTOMERS**
Show service updates, upsell parts, give walk-arounds, or share your screen — all with a quick link via text.
- **SERVICE RUNS ON TEXT**
Give service updates, coordinate pick-ups, and save time. The voicemail days are over.
- **COLLECT PAYMENT VIA TEXT**
Get paid faster by sending payment requests over text message. Customers can make a payment in 3 clicks.
- **ONLINE REVIEW GENERATION**
On average, about 1% of customers leave reviews. Let's increase that to 35% with Kenect.
